

Southern Meet & Greet Sunday 19th October Trip Leader: Les & Eileen

Les & Eileen, Gordon & Ida, Ralph & Terri, and Ewen & Dee

Eventually everyone found their way to the Aberfoyle Park Community Centre Car park, it appears that some GPS's are not up to date as one was looking for the Community Centre that had been shifted about 5 years ago, but with the modern invention of mobile phones we were able to get everyone to the car park.

We left the park and headed for the hills. At the top of Oakridge road there was a great view over the Happy Valley Reservoir to the coast. On to Cherry Garden road, a right turn had us heading towards Clarendon. We found our first stretch of windy dirt road. After stopping at the Clarendon Bakery for morning tea we made our way to the Clarendon Oval. One member complained that the dirt road got his vehicle dirty (they breed them soft up North or is it interstate.) Leaving the Oval we made a left turn for the Mount Bold Reservoir where we stretched our legs and walked on to the dam wall. Back on the road and we pass

part of the Heysen Trail and Kuitpo Forrest.

A few more left and right turns we are passing through Meadows. We must have been the only people not going to the Meadows Fair as the traffic was very heavy.

We are back on the black top and heading towards Kangarilla when we do a left turn onto another dirt road. This road lead to a farm house but had a track going off to our right (was a firm track when we did our recky about a month ago) but

it had been graded and very fine dirt added to the track creating bulldust. There were stop calls over the radio as visibility became hopeless (it was ok at the front). After a few more turns we arrived at Prospect Hill for lunch.

Happy group at Prospect Hill Lunch stop.

After Lunch we found some more dirt road and Mt Magnificent.

View from Mt Magnificent

We wound our way through Yundi, Finniss and into Willunga. A right turn at Willunga saw us arrive at the Robern Menz (Fruchocs) shop at McLaren Vale.

After purchases at the Menz shop we said farewell to Ewin and Dee, Ralph and Terri. Gordon and Ida and ourselves continued on to the Desalination plant as it was only a slight detour, and we got to drive on some of the new freeway. At the desal plant we left Gordon and Ida to find their way home.

Thanks for coming on the Sunday drive with us.
Thanks for the photos from the Atherton's new camera.

Les & Eileen
